DCI/NIO Conference -- NIO/EUR, 4 December 1984

1. Poland: The murder of Father Popieluszko is continuing to give Jaruzelski problems. Initial indications were that the investigation would be open-ended and be used to purge the Interior Ministry. It now appears there was significant opposition to this approach and only four officials will be brought to justice while Milewski may lose his Politburo seat. Such a damage-limitation operation by Jaruzelski would probably be approved by Moscow but would leave Polish society even more alienated than before.
